- Consistent acquiring new knowledge

Self-introduction

I'm 24 years old, have experience working in big IT companies and startup ones. Also, I developed more than 27 projects, and a list of them was published on my website - **skaretskiy.uk.**
My **favorite** project is a Chrome extension for my sales work which was used to reduce my daily routine (automatically copy, take, and process tasks.
Also, I like the codebase of my CV website on GitHub.
Currently, I am improving my programming skills in the technologies mentioned above by using them in my work and acquiring new ones.
About life shortly: play football, jog a lot, and sometimes attend an MMA course, but most of my free time - learning.
